

foneplus WiFi

www.sure.io

Available at these locations

How to Log-In

- Look out for a foneplus SSID when to turn on your WiFi

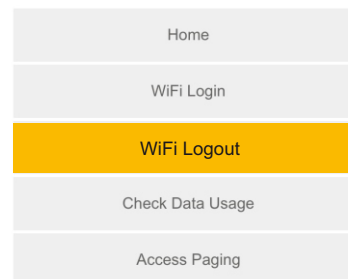

Login to foneplus WiFi

Card Number
Pin Number

- Enter your card number and pin number in the boxes above.
- If you are using the card for the first time, you will need to set a PIN number, phone 9901 and follow the voice prompt
- When you log into WiFi, a session logout window will appear, try not to close this window.

- When you have finished using WiFi, log out to close your session and stop charging.
- If you do not log out, you may not be able to log in again while your previous session times out
- If you accidentally close the session log off window, please go to WiFi Login again and click the WiFi Logout menu button.

- If still having problem logging out, just disable the WiFi on your device.

Sure Web Site

You can explore the www.sure.io website for free after connecting to the Sure hotspot. Although you will automatically be re-directed to the WiFi Login webpage, if you click "Home" prior logging in, you can browse the Sure website without using your WiFi credit.
